

Netspeak Games Ltd
1 Giltspur Street
EC1A 9DD

To whom it may concern,

This is with reference to Samy Benachi & his employment at Netspeak Games from 31st January to the 18th of August 2022.

Samy is an excellent engineer & a quick learner. He collaborates well with artists, engineers and designers alike. His creative input was appreciated & his spark for finding the fun led to multiple new ideas & innovations in our title Sunshine Days.

Sunshine Days is an extremely technically challenging product; a proprietary back end, cross platform unreal engine for the client & numerous tools and processes for managing a live MMO. Samy picked all of this up very quickly, delivered features into the live game while maintaining our high internal quality bar. He provided good feedback via our code review process & made great suggestions for work arounds and quick wins when appropriate.

I can highly recommend Samy as an engineer on any game team that will appreciate his creative flair, passion & enthusiasm.

Sincerely,

Callum Cooper-Brighting
CEO

Reference for: Samy-Anis Benachi

To Whom It May Concern

Samy-Anis Benachi was employed by ELS as a Software Engineer from 03 August 2021 until 02 July 2021.

Samy-Anis has supported on the delivery of several key projects. He works in a timely manner and always completes his tasks on time. I find Samy-Anis a polite individual and feel they would be a great asset to any team and would recommend them as a candidate for employment. I wish Samy-Anis all the best in their career.

If you have any further questions, please do not hesitate to get in touch by calling the office number below or dropping me an email.

Sincerely

DHawkins

Dale Hawkins
